Notes:

Ancillary Services includes visits for things like BP Checks, Pregnancy Tests, Wound Care, INRs, Medication Management, and PPD Tests.
 For all visits, lab work that can be completed in office is included in the visit fee.
 For Dental visits, lab work and supplies that must be sent to an outside lab are not included in the visit fee and will be an additional fee.
 For Optical visits, the visit fee covers services only (exam, in-office testing, fitting); it does not include lenses, frames and other supplies.
 The 340B Drug program allows OLE Health to purchase drugs at a discounted price. We give this same discount to our patients.

*Most SFS patients with high out-of-pocket costs are eligible for benefits through the Napa Patient Assistance Program (NPAP) to assist with payment for high-cost medication.
 If a patient's out-of-pocket costs (after any NPAP financial assistance) exceeds \$54 - \$74 (depending on their SFS class), the 340B Drug Cost recovery will be limited to \$50.
